

## Maple Valley Public School District # 4

As other schools across the nation are now getting back to “Face-to-Face” learning in their schools, Maple Valley Public School has been “Face-to-Face” since August 19, 2020.

It was mid July 2020 that our Smart Restart Program was launched, calling together the Districts Emergency Response Team, to plan out our Back-to-School process and get our school ready for another successful year at Maple Valley Public School.

Our Response Team was made up of Faculty, Staff, Parents, Students and Administrators so that all could provide input. We’ve been successfully “Face-to-Face” since the beginning of the school year.
